

The Spatial
Biology Tour™

Sep **18**

Medical University of Vienna

Host: Dr. Philipp Velicky, Imaging Core Facility

Location: Anna Spiegel Research Building, Seminar Room Level 3, Lazarettgasse 14, 1090 Vienna

Meet the innovators who are bringing the context of tissues to biomarkers' studies. Discover how spatial biology can help advance your research.

- 10:00** Welcome and registration - Introduction by Philipp Velicky
- 10:15** Presentation by Dr. Mila Basic on spatial cell profiling with hyperplex immunofluorescence
- 11:00** Presentation by Dr. Larissa Thomsen on RNA biomarkers visualization to advance spatial biology
- 11:30** Presentation by Dr. Sarah Melzer on circuit-specific neuropeptide actions in the brain
- 12:00** Lunch and networking
- 13:00** COMET™ instrument on-site demonstration
